RE: Jason's Law – To implement a pilot program to establish truck parking facilities

Dear Senator:

I am writing to ask you to support the above proposed legislation. Every day, men and women support their families by driving trucks across our nation to deliver goods to businesses. The federal government has placed regulations on the number of hours that they can drive and mandates the number of hours that they must rest. Until now, very little has been done to provide safe havens for them to get this required rest.

This legislation will also protect anyone who travels as many people stop in rest areas to get a "power nap." They, too, are vulnerable to violence due to inadequate security.

It is imperative that this legislation be passed in order to prevent more assaults against and deaths of our truck drivers who are the backbone of our country. Without them, we would not have food, clothing, entertainment, or any of the other things we enjoy in life. Without them businesses would not be able to continue. Their trucks are their work places. Please support making their work place as safe as we expect our work place to be. Vote yes on this legislation.

Sincerely,
Your Name
